Unrivalled Quality

Sun Eleuthero® Extract is made from the eleuthero (*Eleutherococcus senticosus*) root where nature has concentrated its nutrients. Sun Eleuthero® roots are harvested only in the Fall, when the plant is at its peak potency.

Eleuthero is a natural adaptogen, defined as “a non-toxic substance that reinforces the body’s ability to adapt to stress,” promotes physical and mental stamina, and positively impacts overall well being. The principal constituents found in eleuthero, called eleutherosides, help support the natural defense system to maintain good health.

Honey and plum extract have been added to Sun Eleuthero® Extract to preserve the quality and enhance its taste.

Quality, purity and integrity have made Sun Chlorella® a leader in the health food industry since 1969. This same commitment to excellence is found in every bottle of Sun Eleuthero® Extract.

These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.
